Your service plan lists the things that you want help with so that you can live your life.

The services in a service plan might be things like:
- someone to help you cook
- someone to help you with your medication
- someone that drives you to work

One service you can list in your service plan is career planning.

Career planning services help people get a job in the community.

One part of career planning is worksite accessibility.

Worksite accessibility helps you make changes where you work that can make your job easier for you to do.
Worksite accessibility can help you learn more about the kinds of changes that can be made to the place where you work.

Some examples of worksite accessibility are:

- Making a ramp over stairs
- Changing the height of your desk
- Moving tables to make bigger areas to move through

If you would like to know more about worksite accessibility, contact your Service and Support Administrator or your SSA.

If you are not sure who your SSA is, read Your Service and Support Administrator, an Easy Read Guide.
