Your service plan lists the things that you want help with so that you can live your life.

The services in a service plan might be things like
• someone to help you cook
• someone to help you with your medication
• someone that drives you to work

One service you can list in your service plan is career planning.

Career planning services help people get a job in the community.

A part of career planning is job development. Job development can help you find a job in the community that you might like and apply for it.
Job development services can help you find a job that matches what you like and what you are interested in.

People providing job development services talk to different businesses or places in the community that match your interests.

They talk with employers to find out what their business needs. They tell employers how you can help that business, as part of your job.

You can only get job development if you want a job in the community.

If you would like to know more about job development, contact your Service and Support Administrator or your SSA.

If you are not sure who your SSA is, read Your Service and Support Administrator, an Easy Read Guide.
